

Required Notices

**For you.
About you.**

IMI reserves the right to change, amend, or terminate any benefits plan at any time for any reason. Participation in a benefits plan is not a promise or guarantee of future employment. Receipt of benefits documents does not constitute eligibility.

The Benefits Guide, combined with these legal notices, provides an overview of the benefits available to eligible employees and their dependents. In all cases, the official plan documents govern and the Benefits Guide is not, and should not be relied upon as, a governing document. In the event of a discrepancy between the information presented in the Benefits Guide and official plan documents, the official plan documents will govern.

Fixed Indemnity Notice

This fixed indemnity policy may pay you a limited dollar amount if you're sick or hospitalized. You're still responsible for paying the cost of your care.

- The payment you get isn't based on the size of your medical bill.
- There might be a limit on how much this policy will pay each year.
- This policy isn't a substitute for comprehensive health insurance.
- Since this policy isn't health insurance, it doesn't have to include most federal consumer protections that apply to health insurance.

Looking for comprehensive health insurance?

Visit healthcare.gov or call **1-800-318-2596** (TTY: 1-855-889-4325) to find health coverage options. To find out if you can get health insurance through your job, or a family member's job, contact the employer.

Questions about this policy?

- For questions or complaints about this policy, contact your state Department of Insurance. Find their number on the National Association of Insurance Commissioners' website (naic.org) under "Insurance Departments."
- If you have this policy through your job, or a family member's job, contact the employer.

Statement of material modifications

This enrollment guide constitutes a Summary of Material Modifications (SMM) or Summary of Material Reductions (SMR), as applicable, to the IMI Americas Inc. Health and Welfare Plans summary plan description (SPD). It is meant to supplement and/or replace certain information in the SPD, so retain it for future reference along with your SPD. Please share these materials with your covered family members.

Summary of benefits coverage & summary plan description

A Summary of Benefits Coverage (SBC) and a Summary Plan Description (SPD) for each of the employer-sponsored medical plans are available at us.imi-optimize.com. You may also request a paper copy by emailing benefits@imiamericasinc.com.

Willis Towers Watson role and compensation

Willis Towers Watson (WTW) facilitates the placement of insurance coverage on behalf of its clients.

Willis Towers Watson is compensated through commissions that are calculated as a percentage of the insurance premiums charged by insurers. This compensation may include payment from insurers for marketing-related expenses, technology investments, or service fees. Our compensation may vary depending on the type of insurance purchased, the insurer selected, and other factors such as the volume, growth, and/or retention of WTW's book of business with the insurer or service provider.

Taxation of benefits

The taxation of certain benefits may vary at the local, state, and federal level. You should consult your tax advisor if you have any questions about the proper treatment of any benefits.

Important notice from IMI about creditable prescription drug coverage and Medicare

The purpose of this notice is to advise you that the prescription drug coverage listed below under the IMI medical plans is expected to pay out, on average, at least as much as the standard Medicare prescription drug coverage will pay in 2025. This is known as "creditable coverage."

Why this is important: If you or your covered dependent(s) is enrolled in any prescription drug coverage during 2025 listed in this notice and is or becomes covered by Medicare, you or your covered dependent(s) may decide to enroll in a Medicare prescription drug plan later and not be subject to a late enrollment penalty — as long as you had creditable coverage within 63 days of your Medicare prescription drug plan enrollment. You should keep this notice with your important records.

If you or your family members aren't currently covered by Medicare and won't become covered by Medicare in the next 12 months, this notice doesn't apply to you.

Please read the notice below carefully. It has information about prescription drug coverage with IMI and prescription drug coverage available for people with Medicare. It also tells you where to find more information to help you make decisions about your prescription drug coverage.

Notice of creditable coverage

You may have heard about Medicare's prescription drug coverage (called Part D) and wondered how it would affect you. Prescription drug coverage is available to everyone with Medicare through Medicare prescription drug plans. All Medicare prescription drug plans provide at least a standard level of coverage set by Medicare. Some plans also offer more coverage for a higher monthly premium.

Individuals can enroll in a Medicare prescription drug plan when they first become eligible, and each year from October 15 through December 7. Individuals leaving employer/union coverage may be eligible for a Medicare Special Enrollment Period.

If you are covered by one of the IMI prescription drug plans listed below, you'll be interested to know that the prescription drug coverage under the plan is, on average, at least as good as standard Medicare prescription drug coverage for 2025. This is called "creditable coverage". Coverage under one of these plans will help you avoid a late Part D enrollment penalty if you are or become eligible for Medicare and later decide to enroll in a Medicare prescription drug plan.

- Anthem PPO Plan
- Anthem HSA Low Plan
- Anthem HSA High Plan
- Kaiser HMO Plan

If you decide to enroll in a Medicare prescription drug plan and you are an active employee or family member of an active employee, you may also continue your employer coverage. In this case, the IMI plan will continue to pay primary or secondary as it had before you enrolled in a Medicare prescription drug plan. If you waive or drop IMI coverage, Medicare will be your only payer. You can re-enroll in the employer plan at Open Enrollment or if

For more information about your options under Medicare prescription drug coverage

More detailed information about Medicare plans that offer prescription drug coverage is in the Medicare & You handbook. Medicare participants will get a copy of the handbook in the mail every year from Medicare. You may also be contacted directly by Medicare prescription drug plans. Here's how to get more information about Medicare prescription drug plans:

- Visit [medicare.gov](https://www.medicare.gov) for personalized help.
- Call your State Health Insurance Assistance Program (see a copy of the Medicare & You handbook for the telephone number).
- Call **1-800-MEDICARE (1-800-633-4227)**. TTY users should call **1-877-486-2048**.

For people with limited income and resources, extra help paying for a Medicare prescription drug plan is available. Information about this extra help is available from the Social Security Administration (SSA). For more information about this extra help, visit SSA online at [socialsecurity.gov](https://www.socialsecurity.gov) or call **1-800-772-1213 (TTY 1-800-325-0778)**.

Remember: Keep this notice. If you enroll in a Medicare prescription drug plan after your applicable Medicare enrollment period ends, you may need to provide a copy of this notice when you join a Part D plan to show that you are not required to pay a higher Part D premium amount.

For more information about this notice or your prescription drug coverage, contact:

Cassandra Perry
Vice President of Benefits US

IMI Americas
7979 East Tufts Avenue
Suite 1150
Denver, CO 80237
benefits@imiamericasinc.com

you have a special enrollment event for the IMI plan, assuming you remain eligible.

You should know that if you waive or leave coverage with IMI and you go 63 days or longer without creditable prescription drug coverage (once your applicable Medicare enrollment period ends), your monthly Part D premium will go up at least 1% per month for every month that you did not have creditable coverage. For example, if you go 19 months without coverage, your Medicare prescription drug plan premium will always be at least 19% higher than what most other people pay. You'll have to pay this higher premium as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to enroll in Part D.

You may receive this notice at other times in the future — such as before the next period you can enroll in Medicare prescription drug coverage, if this IMI coverage changes, or upon your request.

Health Insurance Portability and Accountability Act (HIPAA) special enrollment notice

Notice of special enrollment rights for health plan coverage

If you have declined enrollment in IMI's health plan for you or your dependents (including your spouse) because of other health insurance coverage, you or your dependents may be able to enroll in some coverages under these plans without waiting for the next Open Enrollment period, provided you request enrollment within 30 days of when your other coverage ends.

In addition, if you have a new dependent as a result of marriage, birth, adoption, or placement for adoption, you may be able to enroll yourself and your eligible dependents, provided that you request enrollment within 30 days of the marriage, birth, adoption, or placement for adoption.

IMI will also allow a special enrollment opportunity if you or your eligible dependents either:

- Lose Medicaid or Children's Health Insurance Program (CHIP) coverage because you are no longer eligible; or
- Become eligible for a state's premium assistance program under Medicaid or CHIP.

For these enrollment opportunities, you will have 60 days — instead of 30 — from the date of the Medicaid/CHIP eligibility change to request enrollment in the IMI group health plan. Note that this 60-day extension does not apply to enrollment opportunities other than due to the Medicaid/CHIP eligibility change.

Note: If your dependent becomes eligible for special enrollment rights, you may add the dependent to your current coverage or change to another medical plan.

To request a HIPAA special enrollment based on the events described above or obtain more information, contact benefits@imiamericasinc.com. If you have experienced a HIPAA special enrollment event (as described above) and would like to request a HIPAA special enrollment outside of the 30-day window, please contact benefits@imiamericasinc.com. Note that the ability to request a HIPAA special enrollment outside of the 30-day window is temporary and may no longer apply based on the status of the COVID National Emergency declaration. In addition, the extended enrollment opportunity is individually determined and may not apply based on your specific circumstances.

Women's Health and Cancer Rights Act (WHCRA) notice

If you have had or are going to have a mastectomy, you may be entitled to certain benefits under the Women's Health and Cancer Rights Act of 1998 (WHCRA). For individuals receiving mastectomy-related benefits, coverage will be provided in a manner determined in consultation with the attending physician and the patient, for:

- All stages of reconstruction of the breast on which the mastectomy was performed;
- Surgery and reconstruction of the other breast to produce a symmetrical appearance;
- Prostheses; and
- Treatment of physical complications of the mastectomy, including lymphedema.

These benefits will be provided subject to the same deductibles and coinsurance applicable to other medical and surgical benefits provided under this plan. If you would like more information on WHCRA benefits, call your medical carrier at the phone number listed on the back of your ID card.

Newborns' and Mothers' Health Protection Act notice

Group health plans and health insurance issuers generally may not, under Federal law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, Federal law generally does not prohibit the mother's or newborn's attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, plans and issuers may not, under Federal law, require that a provider obtain authorization from the plan or the insurance issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours). If you would like more

information on maternity benefits, call your medical carrier at the phone number listed on the back of your ID card.

Michelle's Law notice

Extended dependent medical coverage during student medical leaves

The IMI plan may extend medical coverage for dependent children if they lose eligibility for coverage because of a medically necessary leave of absence from a post-secondary educational institution (including a college or university). Coverage may continue for up to a year, unless the child's eligibility would end earlier for another reason.

Extended coverage is available if a child's leave of absence from school — or change in school enrollment status (for example, switching from full-time to part-time status) — starts while the child has a serious illness or injury, is medically necessary, and otherwise causes eligibility for student coverage under the plan to end. Written certification from the child's physician stating that the child suffers from a serious illness or injury and the leave of absence is medically necessary may be required.

If the coverage provided by the plan is changed during this one-year period, the plan will provide the changed coverage for the remainder of the leave of absence.

If your child will lose eligibility for coverage because of a medically necessary leave of absence from school and you want their coverage to be extended, call PlanSource at **1-844-347-2498** as soon as the need for the leave is recognized by IMI. In addition, contact your child's health plan to see if any state laws requiring extended coverage may apply to their benefits.

Notice regarding wellness program

Personify Health is a voluntary wellness program available to all employees. The program is administered according to federal rules permitting employer-sponsored wellness programs that seek to improve employee health or prevent disease, including the Americans with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act, as applicable, among others. If you choose to participate in the wellness program, you will be asked to complete a voluntary health risk assessment or "HRA" that asks a series of questions about your health-related activities and behaviors and whether you have or had certain medical conditions (e.g., cancer, diabetes, or heart disease), and you may also be asked to complete a biometric screening, which will include a blood test for specific conditions. You are not required to complete the HRA or to participate in the blood test or other medical examinations.

If you are unable to participate in any of the health-related activities or achieve any of the health outcomes required to earn an incentive, you may be entitled to a reasonable accommodation or an alternative standard. You may request a reasonable accommodation or an alternative standard by contacting benefits@imiamericasinc.com.

The information from your HRA and the results from your biometric screening will be used to provide you with information to help you understand your current health and potential risks, and may also be used to offer you services through the wellness program. You also are encouraged to share your results or concerns with your own doctor.

Protections from disclosure of medical information

We are required by law to maintain the privacy and security of your personally identifiable health information. Although the wellness program and IMI may use aggregate information it collects to design a program based on identified health risks in the workplace, Personify Health will never disclose any of your personal information either publicly or to the employer, except as necessary to respond to a request from you for a reasonable accommodation needed to participate in the wellness program, or as expressly permitted by law. Medical information that personally identifies you that is provided in connection with the wellness program will not be provided to your supervisors or managers and may never be used to make decisions regarding your employment.

Your health information will not be sold, exchanged, transferred, or otherwise disclosed except to the extent permitted by law to carry out specific activities related to the wellness program, and you will not be asked or required to waive the confidentiality of your health information as a condition of participating in the wellness program or receiving an incentive. Anyone who receives your information for purposes of providing you services as part of the wellness program will abide by the same confidentiality requirements.

In addition, all medical information obtained through the wellness program will be maintained separate from your personnel records, information stored electronically will be encrypted, and no information you provide as part of the wellness program will be used in making any employment decisions. Appropriate precautions will be taken to avoid any data breach, and in the event a data breach occurs involving information you provide in connection with the wellness program, we will notify you immediately.

You may not be discriminated against in employment because of the medical information you provide as part of participating in the wellness program, nor may you be subjected to retaliation if you choose not to participate.

If you have questions or concerns regarding this notice, or about protections against discrimination and retaliation, please contact benefits@imiamericasinc.com.

GINA Warning against Providing Genetic Information

The Genetic Information Nondiscrimination Act (GINA) prohibits collection of genetic information by both employers and health plans, and it defines genetic information very broadly. Asking an individual to provide family medical history is considered collection of genetic information, even if there is no reward for responding (or penalty for failure to respond). In addition, a question about an individual's current health status is considered to be a request for genetic information if it is made in a way likely to result in obtaining genetic information (e.g., family medical history). Wellness programs that require completion of health risk assessments or other forms that request health information may violate the collection prohibition unless they fit within an exception to the prohibition for inadvertent acquisition of such information. This exception applies if the request does not violate any laws, does not ask for genetic information and includes a warning against providing genetic information in any responses.

Premium Assistance Under Medicaid and the Children's Health Insurance Program (CHIP)

If you or your children are eligible for Medicaid or CHIP and you're eligible for health coverage from your employer, your state may have a premium assistance program that can help pay for coverage, using funds from their Medicaid or CHIP programs. If you or your children aren't eligible for Medicaid or CHIP, you won't be eligible for these premium assistance programs but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit www.healthcare.gov.

If you or your dependents are already enrolled in Medicaid or CHIP and you live in a State listed below, contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, contact your State Medicaid or CHIP office or dial **1-877-KIDS NOW** or www.insurekidsnow.gov to find out how to apply. If you qualify, ask your state if it has a program that might help you pay the premiums for an employer-sponsored plan.

If you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must allow you to enroll in your employer plan if you aren't already enrolled. This is called a "special enrollment" opportunity, and **you must request coverage within 60 days of being determined eligible for premium assistance**. If you have questions about enrolling in your employer plan, contact the Department of Labor at www.askebsa.dol.gov or call **1-866-444-EBSA (3272)**.

If you live in one of the following states, you may be eligible for assistance paying your employer health plan premiums. The following list of states is current as of July 31, 2025. Contact your State for more information on eligibility.

Paperwork Reduction Act Statement

According to the Paperwork Reduction Act of 1995 (Pub. L. 104-13) (PRA), no persons are required to respond to a collection of information unless such collection displays a valid Office of Management and Budget (OMB) control number. The Department notes that a Federal agency cannot conduct or sponsor a collection of information unless it is approved by OMB under the PRA, and displays a currently valid OMB control number, and the public is not required to respond to a collection of information unless it displays a currently valid OMB control number. See 44 U.S.C. 3507. Also, notwithstanding any other provisions of law, no person shall be subject to penalty for failing to comply with a collection of information if the collection of information does not display a currently valid OMB control number. See 44 U.S.C. 3512.

The public reporting burden for this collection of information is estimated to average approximately seven minutes per respondent. Interested parties are encouraged to send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Labor, Employee Benefits Security Administration, Office of Policy and Research, Attention: PRA Clearance Officer, 200 Constitution Avenue, N.W., Room N-5718, Washington, DC 20210 or email ebsa.opr@dol.gov and reference the OMB Control Number 1210-0137.

Physician Designation Notice

You do not need prior authorization from Kaiser or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a healthcare professional in our network who specializes in obstetrics or gynecology. The healthcare professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating healthcare professionals who specialize in obstetrics or gynecology, contact Kaiser at (English: **1-800-464-4000**/Spanish: **1-800-788-0616**).

IMI HIPAA Privacy Notice

Please carefully review this notice. It describes how medical information about you may be used and disclosed and how you can get access to this information.

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) imposes numerous requirements on the use and disclosure of individual health information by IMI health plans. This information, known as protected health information, includes almost all individually identifiable health information held by a plan — whether received in writing, in an electronic medium, or as an oral communication. This notice describes the privacy practices of these plans: PPO Plan, HSA Low Plan, HSA High Plan, Delta Dental Basic Plus Plan, Enhanced Dental with Orthodontia Plan, and Flexible Spending Account. The plans covered by this notice may share health information with each other to carry out treatment, payment, or healthcare operations. These plans are collectively referred to as the Plan in this notice, unless specified otherwise.

The Plan's duties with respect to health information about you

The Plan is required by law to maintain the privacy of your health information and to provide you with this notice of the Plan's legal duties and privacy practices with respect to your health information. If you participate in an insured plan option, you will receive a notice directly from the Insurer. It's important to note that these rules apply to the Plan, not IMI as an employer — that's the way the HIPAA rules work. Different policies may apply to other IMI programs or to data unrelated to the Plan.

How the Plan may use or disclose your health information

The privacy rules generally allow the use and disclosure of your health information without your permission (known as an authorization) for purposes of healthcare treatment, payment activities, and healthcare operations. Here are some examples of what that might entail:

- Treatment includes providing, coordinating, or managing healthcare by one or more healthcare providers or doctors. Treatment can also include coordination or management of care between a provider and a third party, and consultation and referrals between providers. For example, the Plan may share your health information with physicians who are treating you.
- Payment includes activities by this Plan, other plans, or providers to obtain premiums, make coverage determinations, and provide reimbursement for healthcare. This can include determining eligibility, reviewing services for medical necessity or appropriateness, engaging in utilization management activities, claims management, and billing; as well as performing "behind the scenes" plan functions, such as risk adjustment, collection, or reinsurance. For example, the Plan may share information about your coverage or the expenses you have incurred with another health plan to coordinate payment of benefits.
- Healthcare operations include activities by this Plan (and, in limited circumstances, by other plans or providers), such as wellness and risk assessment programs, quality assessment and improvement activities, customer service, and internal grievance resolution. Healthcare operations also include evaluating vendors; engaging in credentialing, training, and accreditation activities; performing underwriting or premium rating; arranging for medical review and audit activities; and conducting business planning and development. For example, the Plan may use information about your claims to audit the third parties that approve payment for Plan benefits.

The amount of health information used, disclosed, or requested will be limited and, when needed, restricted to the minimum necessary to accomplish the intended purposes, as defined under the HIPAA rules. If the Plan uses or discloses Personal Health Information (PHI) for underwriting purposes, the Plan will not use or disclose PHI that is your genetic information for such purposes.

How the Plan may share your health information with IMI

The Plan, or its health insurer or Health Maintenance Organization (HMO), may disclose your health information without your written authorization to IMI for plan administration purposes. IMI may need your health information to administer benefits under the Plan. IMI agrees not to use or disclose your health information other than as permitted or required by the Plan documents and by law. The Vice President of Benefits is the only IMI employee who will have access to your health information for plan administration functions.

Here's how additional information may be shared between the Plan and IMI, as allowed under the HIPAA rules:

- The Plan, or its insurer or HMO, may disclose "summary health information" to IMI, if requested, for purposes of obtaining premium bids to provide coverage under the Plan or for modifying, amending, or terminating the plan. Summary health information is information that summarizes participants' claims information, from which names and other identifying information have been removed.

The Plan, or its insurer or HMO, may disclose to IMI information on whether an individual is participating in the Plan or has enrolled or disenrolled in an insurance option or HMO offered by the Plan.

In addition, you should know that IMI cannot and will not use health information obtained from the Plan for any employment-related actions. However, health information collected by IMI from other sources — for example, under the Family and Medical Leave Act, Americans with Disabilities Act, or workers' compensation programs — is not protected under HIPAA (although this type of information may be protected under other federal or state laws).

Other allowable uses or disclosures of your health information

In certain cases, your health information can be disclosed without authorization to a family member, close friend, or other person you identify who is involved in your care or payment for your care. Information about your location, general condition, or death may be provided to a similar person (or to a public or private entity authorized to assist in disaster relief efforts). You'll generally be given the chance to agree or object to these disclosures (although exceptions may be made — for example, if you're not present or if you're incapacitated). In addition, your health information may be disclosed without authorization to your legal representative. The Plan also is allowed to use or disclose your health information without your written authorization for the following activities:

- **Workers' compensation:** Disclosures to workers' compensation or similar legal programs that provide benefits for work-related injuries or illness without regard to fault, as authorized by and necessary to comply with the laws.
- **Necessary to prevent serious threat to health or safety:** Disclosures made in the good-faith belief that releasing your health information is necessary to prevent or lessen a serious and imminent threat to public or personal health or safety, if made to someone reasonably able to prevent or lessen the threat (or to the target of the threat); includes disclosures to help law enforcement officials identify or apprehend an individual who has admitted participation in a violent crime that the Plan reasonably believes may have caused serious physical harm to a victim, or where it appears the individual has escaped from prison or from lawful custody.
- **Public health activities:** Disclosures authorized by law to persons who may be at risk of contracting or spreading a disease or condition; disclosures to public health authorities to prevent or control disease or report child abuse or neglect; and disclosures to the Food and Drug Administration to collect or report adverse events or product defects.
- **Victims of abuse, neglect, or domestic violence:** Disclosures to government authorities, including social services or protected services agencies authorized by law to receive reports of abuse, neglect, or domestic violence, as required by law or if you agree or the Plan believes that disclosure is necessary to prevent serious harm to you or potential victims (you'll be notified of the Plan's disclosure if informing you won't put you at further risk).
- **Judicial and administrative proceedings:** Disclosures in response to a court or administrative order, subpoena, discovery request, or other lawful process (the Plan may be required to notify you of the request or receive satisfactory assurance from the party seeking your health information that efforts were made to notify you or to obtain a qualified protective order concerning the information).

- **Law enforcement purposes:** Disclosures to law enforcement officials required by law or legal process, or to identify a suspect, fugitive, witness, or missing person; disclosures about a crime victim if you agree or if disclosure is necessary for immediate law enforcement activity; disclosures about a death that may have resulted from criminal conduct; and disclosures to provide evidence of criminal conduct on the Plan's premises.
- **Decedents:** Disclosures to a coroner or medical examiner to identify the deceased or determine cause of death; and to funeral directors to carry out their duties.
- **Organ, eye, or tissue donation:** Disclosures to organ procurement organizations or other entities to facilitate organ, eye, or tissue donation and transplantation after death.
- **Research purposes:** Disclosures subject to approval by institutional or private privacy review boards, subject to certain assurances and representations by researchers about the necessity of using your health information and the treatment of the information during a research project.
- **Health oversight activities:** Disclosures to health agencies for activities authorized by law (audits, inspections, investigations, or licensing actions) for oversight of the healthcare system, government benefits programs for which health information is relevant to beneficiary eligibility, and compliance with regulatory programs or civil rights laws.
- **Specialized government functions:** Disclosures about individuals who are Armed Forces personnel or foreign military personnel under appropriate military command; disclosures to authorized federal officials for national security or intelligence activities; and disclosures to correctional facilities or custodial law enforcement officials about inmates.
- **HHS investigations:** Disclosures of your health information to the Department of Health and Human Services to investigate or determine the Plan's compliance with the HIPAA privacy rule.

Except as described in this notice, other uses and disclosures will be made only with your written authorization. For example, in most cases, the Plan will obtain your authorization before it communicates with you about products or programs if the Plan is being paid to make those communications. If we keep psychotherapy notes in our records, we will obtain your authorization in some cases before we release those records. The Plan will never sell your health information unless you have authorized us to do so. You may revoke your authorization as allowed under the HIPAA rules. However, you can't revoke your authorization with respect to disclosures the Plan has already made. You will be notified of any unauthorized access, use, or disclosure of your unsecured health information as required by law.

The Plan will notify you if it becomes aware that there has been a loss of your health information in a manner that could compromise the privacy of your health information.

Your individual rights

You have the following rights with respect to your health information the Plan maintains. These rights are subject to certain limitations, as discussed below. This section of the notice describes how you may exercise each individual right. See the Contact section at the end of this notice for information on how to submit requests.

Right to request restrictions on certain uses and disclosures of your health information and the Plan's right to refuse

You have the right to ask the Plan to restrict the use and disclosure of your health information for treatment, payment, or healthcare operations, except for uses or disclosures required by law. You have the right to ask the Plan to restrict the use and disclosure of your health information to family members, close friends, or other persons you identify as being involved in your care or payment for your care. You also have the right to ask the Plan to restrict use and disclosure of health information to notify those persons of your location, general condition, or death — or to coordinate those efforts with entities assisting in disaster relief efforts. If you want to exercise this right, your request to the Plan must be in writing.

The Plan is not required to agree to a requested restriction. If the Plan does agree, a restriction may later be terminated by your written request, by agreement between you and the Plan (including an oral agreement), or unilaterally by the Plan for health information created or received after you're notified that the Plan has removed the restrictions. The Plan may also disclose health information about you if you need emergency treatment, even if the Plan has agreed to a restriction.

An entity covered by these HIPAA rules (such as your healthcare provider) or its business associate must comply with your request that health information regarding a specific healthcare item or service not be disclosed to the Plan for purposes of payment or healthcare operations if you have paid out of pocket and in full for the item or service.

Right to receive confidential communications of your health information

If you think that disclosure of your health information by the usual means could endanger you in some way, the Plan will accommodate reasonable requests to receive communications of health information from the Plan by alternative means or at alternative locations.

If you want to exercise this right, your request to the Plan must be in writing and you must include a statement that disclosure of all or part of the information could endanger you.

Right to inspect and copy your health information

With certain exceptions, you have the right to inspect or obtain a copy of your health information in a “designated record set.” This may include medical and billing records maintained for a healthcare provider; enrollment, payment, claims adjudication, and case or medical management record systems maintained by a plan; or a group of records the Plan uses to make decisions about individuals. However, you do not have a right to inspect or obtain copies of psychotherapy notes or information compiled for civil, criminal, or administrative proceedings. The Plan may deny your right to access, although in certain circumstances, you may request a review of the denial.

If you want to exercise this right, your request to the Plan must be in writing. Within 30 days of receipt of your request (60 days if the health information is not accessible on site), the Plan will provide you with one of these responses:

- The access or copies you requested.
- A written denial that explains why your request was denied and any rights you may have to have the denial reviewed or file a complaint.
- A written statement that the time period for reviewing your request will be extended for no more than 30 more days, along with the reasons for the delay and the date by which the Plan expects to address your request.

You may also request your health information be sent to another entity or person, so long as that request is clear, conspicuous, and specific. The Plan may provide you with a summary or explanation of the information instead of access to or copies of your health information, if you agree in advance and pay any applicable fees. The Plan also may charge reasonable fees for copies or postage. If the Plan doesn’t maintain the health information but knows where it is maintained, you will be informed where to direct your request.

If the Plan keeps your records in an electronic format, you may request an electronic copy of your health information in a form and format readily producible by the Plan. You may also request that such electronic health information be sent to another entity or person, so long as that request is clear, conspicuous, and specific. Any charge that is assessed to you for these copies must be reasonable and based on the Plan’s cost.

Right to amend your health information that is inaccurate or incomplete

With certain exceptions, you have a right to request that the Plan amend your health information in a designated record set. The Plan may deny your request for a number of reasons. For example, your request may be denied if the health information is accurate and complete, was not created by the Plan (unless the person or entity that created the information is no longer available), is not part of the designated record set, or is not available for inspection (e.g., psychotherapy notes or information compiled for civil, criminal, or administrative proceedings).

If you want to exercise this right, your request to the Plan must be in writing, and you must include a statement to support the requested amendment. Within 60 days of receipt of your request, the Plan will take one of these actions:

- Make the amendment as requested.
- Provide a written denial that explains why your request was denied and any rights you may have to disagree or file a complaint.
- Provide a written statement that the time period for reviewing your request will be extended for no more than 30 more days, along with the reasons for the delay and the date by which the Plan expects to address your request.

Right to receive an accounting of disclosures of your health information

You have the right to a list of certain disclosures of your health information the Plan has made. This is often referred to as an “accounting of disclosures.” You generally may receive this accounting if the disclosure is required by law, in connection with public health activities, or in similar situations listed in the Other Allowable Uses or Disclosures of your Health Information section earlier in this notice, unless otherwise indicated below.

You may receive information on disclosures of your health information for up to six years before the date of your request. You do not have a right to receive an accounting of any disclosures made in any of these circumstances:

- For treatment, payment, or healthcare operations.
- To you about your own health information.
- Incidental to other permitted or required disclosures.
- Where authorization was provided.
- To family members or friends involved in your care (where disclosure is permitted without authorization).
- For national security or intelligence purposes or to correctional institutions or law enforcement officials in certain circumstances.
- As part of a “limited data set” (health information that excludes certain identifying information).

In addition, your right to an accounting of disclosures to a health oversight agency or law enforcement official may be suspended at the request of the agency or official.

If you want to exercise this right, your request to the Plan must be in writing. Within 60 days of the request, the Plan will provide you with the list of disclosures or a written statement that the time period for providing this list will be extended for no more than 30 more days, along with the reasons for the delay and the date by which the Plan expects to address your request. You may make one request in any 12-month period at no cost to you, but the Plan may charge a fee for subsequent requests. You'll be notified of the fee in advance and have the opportunity to change or revoke your request.

Right to obtain a paper copy of this notice from the plan upon request

You have the right to obtain a paper copy of this privacy notice upon request. Even individuals who agreed to receive this notice electronically may request a paper copy at any time.

Changes to the information in this notice

The Plan must abide by the terms of the privacy notice currently in effect. This notice takes effect on January 1, 2025. However, the Plan reserves the right to change the terms of its privacy policies, as described in this notice, at any time and to make new provisions effective for all health information that the Plan maintains. This includes health information that was previously created or received, not just health information created or received after the policy is changed. If changes are made to the Plan's privacy policies described in this notice, you will be provided with a revised privacy notice.

Complaints

If you believe your privacy rights have been violated or your Plan has not followed its legal obligations under HIPAA, you may complain to the Plan and to the Secretary of Health and Human Services. You won't be retaliated against for filing a complaint. To file a complaint, contact benefits@imiamericasinc.com.

No Surprises Act notice

Your Rights and Protections Against Surprise Medical Bills

When you get emergency care or get treated by an out-of-network provider at an in-network hospital or ambulatory surgical center, you are protected from surprise billing or balance billing.

What is "balance billing" (sometimes called "surprise billing")?

When you see a doctor or other healthcare provider, you may owe certain out-of-pocket costs, such as a copayment, coinsurance, and/or a deductible. You may have other costs or have to pay the entire bill if you see a provider or visit a healthcare facility that isn't in your health plan's network.

"**Out-of-network**" describes providers and facilities that haven't signed a contract with your health plan. Out-of-network providers may be permitted to bill you for the difference between what your plan agreed to pay and the full amount charged for a service. This is called "**balance billing**." This amount is likely more than in-network costs for the same service and might not count toward your annual out-of-pocket limit.

"**Surprise billing**" is an unexpected balance bill. This can happen when you can't control who is involved in your care — like when you have an emergency or when you schedule a visit at an in-network facility but are unexpectedly treated by an out-of-network provider.

You are protected from balance billing for:

Emergency services

If you have an emergency medical condition and get emergency services from an out-of-network provider or facility, the most the provider or facility may bill you is your plan's in-network cost-sharing amount (such as copayments and coinsurance). You can't be balance billed for these emergency services. This includes services you may get after you're in stable condition, unless you give written consent and give up your protections not to be balance billed for these post-stabilization services.

Certain services at an in-network hospital or ambulatory surgical center

When you get services from an in-network hospital or ambulatory surgical center, certain providers there may be out-of-network. In these cases, the most those providers may bill you is your plan's in-network cost-sharing amount. This applies to emergency medicine, anesthesia, pathology, radiology, laboratory, neonatology, assistant surgeon, hospitalist, or intensivist services. These providers **can't** balance bill you and may not ask you to give up your protections **not** to be balance billed.

If you get other services at these in-network facilities, out-of-network providers **can't** balance bill you unless you give written consent and give up your protections.

You're never required to give up your protections from balance billing. You also aren't required to get care out-of-network. You can choose a provider or facility in your plan's network.

When balance billing isn't allowed, you also have the following protections:

- You are only responsible for paying your share of the cost (like the copay, coinsurance, and deductibles that you would pay if the provider or facility was in-network). Your health plan will pay out-of-network providers and facilities directly.
- Your health plan generally must:
 - Cover emergency services without requiring you to get approval for services in advance (prior authorization).
 - Cover emergency services by out-of-network providers.
 - Base what you owe the provider or facility (cost sharing) on what it would pay an in-network provider or facility and show that amount in your explanation of benefits.
 - Count any amount you pay for emergency services or out-of-network services toward your deductible and out-of-pocket limit.

If you believe you've been wrongly billed, you may contact the U.S. Department of Health and Human Services at **1-800-985-3059**. Visit No Surprises Act | CMS for more information about your rights under federal law.

Machine-Readable File

The **Transparency in Coverage Final Rules** require certain group health plans to disclose on a public website information regarding in-network provider rates and historical out-of-network allowed amounts and billed charges for covered items and services in two separate machine-readable files (MRFs). The MRFs for the benefit package options under the IMI Welfare Benefit Plan are linked below:

The link: anthem.com/machine-readable-file/search will allow you to search for our files using our Employer Identification Number (EIN) 84-0858329.
